SEO vs AEO – What’s The Difference for YOU?

Aspect	Traditional SEO	Answer Engine Optimization
Primary Goal	Get more clicks from Google	Get quoted as the answer by AI
Metrics	Traffic, CTR, rankings	AI impressions, citations, trust
Content	Long-form blogs	Precise, quotable, FAQ, statistic
Update Frequency	Few big updates a year	LLMs updated weekly (stay fresh!)
Brand Exposure	Compete for clicks	Massively increased authority

Optimizing only for Google is leaving half the market on the table — **you deserve to be the answer, not just another search result.**
